Green Building Product Information (LEED® Information)

FS500

Traunreut, 25. Oktober 2012

To Whom It May Concern:

Tremco, as an organization, is committed to quality, responsive to both internal and external customers, our employees, our community and environment, and we will treat all with respect and good stewardship.

Material Manufacturing Location

FS500 is manufactured in Traunreut, Germany. If Traunreut falls within a 500 straight-line miles of the project site, the product is considered to be a locally produced material and can help contribute earning Material & Resources Credit.

Raw Material Extraction Information

No single extracted material is used to produce the majority of this product. Additionally, some raw materials come from one of several sources which in-turn come from one of several raw material feed stocks. As such, point source for the raw materials cannot be determined.

Rapidly Renewable Raw Material Information

The rapidly renewable material content is 0.

Recycled Content Information

The recycled content by weight is 0.

VOC Content Information

FS500 contains 3 g/L (0,2 %) volatile organic content (VOC) and therefore satisfies the LEED criteria for Indoor Environmental Quality.

Additional Information

Should you have any questions or require additional information, please do not hesitate to contact Technical Services.

Sincerely,

i.V. Dr. Michael Futscher
